TIMING

The Run Bentonville Half Marathon and 5K events are timed using chip timing provided by RaceWizzard. Your timing chip is commemorative and yours to keep following the race! Please note the following about placement of the timing chip on your shoe.

- Your timing chip **MUST** be attached to your shoe laces with the provided wire ties for the most accurate timing information.
- Do not carry the chip in your hand or pocket. This is very important!
- Thread the wire twist ties under the shoe laces.
- Thread the shoe tag by twisting the wire twist ties firmly together.
- Your time starts when you cross the start line timing mat and stops when you cross the finish line timing mat.
- Not crossing the timing mat could cause errors with capturing your race time accurately.

RBHM RACE PHOTOGRAPHER

Kate Austin Photography is the official photographer for the 2022 Run Bentonville Half Marathon. Photographers will be positioned at the starting line, along the race course, and at the finish line of the races. Please make sure the number on your race bib is visible at all times so your photo can be recorded and identified.
